

# BOW VALLEY RESOURCE

Including Arrowwood, Milo, Queenstown, Shouldice and Mossleigh

Volume 2, No. 46

ARROWWOOD, ALTA., JULY 6, 1933

Subscription \$2.00, U.S.A. \$2.50

## Queenstown Notes

The local school closed on Thursday, last, and the teachers have left for their respective homes, Miss Boundy to Calgary and Mr. Akell to Carstairs.

Mr. and Mrs. George Burke, Dueshes, spent Sunday last with her parents, Mr. and Mrs. W. Sloan.

Mr. and Mrs. R. Asseltine spent the weekend at Banff. They were accompanied home by their son Clifford who has been attending the Banff High School.

Service was held in the United Church on Sunday evening last, and will be held at 8 p.m. each Sunday during the month of July. The Milo service is being held at 12 noon for the month. Mr. Brown is preaching a series of sermons on the "Reality of the Unseen."

Mr. and Mrs. O'Tott are holidaying at Banff.

Bruce Gilbert of Gleichen spent a few days last week with his friend Mr. J. G. Brown.

Mr. and Mrs. Cnas. Northcott and daughters Ruth and Helen were Sunday visitors at the home of Mr. and Mrs. E. J. Cann.

The Ladies Aid of the United Church held a silver tea on Tuesday afternoon at the home of Mrs. Sloan.

Our local station agent, Mr. Rubbelke, is away enjoying his holidays.

The excavation for the new swimming pool has been completed and all are eagerly awaiting the turning-in of the water.

## Church of the Brethren School Officers and Teachers Meet

The officers and teachers of the Church of the Brethren met in conference on Tuesday evening. A number of matters were discussed and suggestions made. This group of workers decided in favor of a ten day Vacation Bible School beginning July 23 and closing August 4. The final decision will be made by the congregation on next Sunday morning.

Such a school would be of a religious nature but strictly non-sectarian. A cordial invitation would be extended to all boys and girls to attend. Watch for further announcements.

## Mossleigh News

Sam Reid of Drumheller was a visitor in town on Saturday looking after his interests here.

C. W. Stafford and mother left last Wednesday for Wainwright. They expect to return next Wednesday bringing with them Mrs. Stafford and Denny who have spent the last month visiting here.

Mrs. E. Pitman and son returned Saturday from a week's visit with her sister at Gem.

Mr. E. Ross was a Lethbridge visitor on Sunday where he played ball with the Blackie team in a double header against the Lethbridge Miners.

On Sunday July 2nd a large crowd gathered at Wyndham Park for picnic and ball game. The Mossleigh team defeated the team from Sunst 24-12.

Neal Washburn had the misfortune to tip his car, a Ford bug, on the highway a quarter of a mile east of here Monday. He received slight injuries.

Gordon Macdonald has moved from the Sunshine Service Station to the old Cook's Garage. The service station is now occupied by the grasshopper poison station.

## Audrey and Shirley Ward Entertainment

On Monday evening the Misses Audrey and Shirley Ward were hostesses to a number of their friends at a party in honor of Miss Odella Keeler. The evening was spent in dancing until twelve o'clock when a delicious lunch of ice cream and cake was served. Dancing was resumed after supper until 1:30 a.m.

## Large Gathering Hears Exposition of Douglas System of Economics

Wm. Aberhart, B.A., Principal of Crescent Heights High School, Calgary, Explains New Credit System.

In spite of the rain and muddy roads between five and six hundred people gathered in the Arrowwood curling rink last Thursday evening to hear Wm. Aberhart, B.A., of Calgary, explain the Douglas System of Economics. Mr. Aberhart was accompanied by his Secretary, Mr. Ernest C. Manning.

Mr. L. H. Irwin acted as chairman and briefly introduced the speakers, first calling on Mr. Manning, who stated that he and his leader were not trying to form a new political party, nor had they any intentions of going into politics. The speaker outlined the conditions existing today and the problems to be faced, which he claimed could be solved only by the Douglas System. Poor market prices, the high cost of machinery, unsatisfactory banking conditions, high interest rates, and high cost of education were some of the problems to be faced. In his address he asked the audience for an open-mindedness. Mr. Manning is a very pleasing speaker and easily followed. He was accorded a hearty applause.

In opening his lecture Mr. Aberhart said the more he learned about the Douglas System, on which he would talk the more he thought of it and was thoroughly convinced that it is a means of placing us in a position to enjoy life. He cited some incidents in the career of Major Douglas and the reducing of his system to a number of plans, one for England, one for Scotland, and one for Ireland. Major's Douglas' visit to Canada was mentioned as was the plan in Australia and New Zealand.

The speaker said there were three things wrong with our present economic system. Firstly, it was impossible to have sufficient power in circulation to buy the goods turned out by the modern mechanized methods, secondly the flow of credit was being interfered with and thirdly, we allowed a certain amount of madness to develop, the prices of goods being too loose in relation to the real value. Mr. Aberhart gave fitting illustrations to enlighten his hearers as to these points.

Money, said the speaker, was only a medium of exchange and it had failed in this respect. Non-negotiable certificates would supply this medium of exchange and adequate buying power, as proposed by the Douglas System. This credit would be in charge of the Province and all credit required in industry would be supplied by the Government. Every citizen would receive monthly allowance of basic dividends, sufficient to provide food, clothing and shelter. Commercial credits would be advanced to farmers, manufacturers, merchants, etc., interest free. All this was explained with the use of a chart that cleared up many technical points. "The Perfect Cycle" showed how, in one direction and proposed plan, goods would flow around in one direction and credit in the other, to meet in an unbroken stream. The state credit house, the only

source of credit, occupied the top of the picture.

All wages earned, over and above the basic dividends, would be spent for better comforts of life. The basic dividends were not wages, but the individuals' share of the natural resources of the Province. The dividends would be spent, as received, thus boarding would be abolished under the plan. If a person wanted to save for some purpose—as buying a car or house, taking a trip and so on, he might buy Government bonds payable at a stated time and bearing 4 per cent interest. Through the use of the chart, "The Perfect Cycle," an explanation of how this saving would benefit everyone coming under the plan, was given.

After the lecture Mr. Aberhart answered many questions concerning export trade, exchange, etc.

"Mr. Aberhart has given much food to the study of the subject and conveys it in a sincere manner."

The meeting was brought to close by the singing of "God save the King." Mrs. Omer Larsen at the piano.

Copies of a resolution for presentation to legislatures were circulated through the audience for signatures, which were signed by a goodly number. If any person failed to sign this petition as the meeting it can be done yet by calling on Mr. R. H. Anderson.

## BASEBALL

Arrowwood 3—Strathmore 7  
Arrowwood 12—Strathmore 7  
The Arrowwood Baseball Team broke even in a double header against the Strathmore "Rebels" on July 1st.

In the afternoon game Miller and A. Crollin hooked up to pitch a perfect game. For the next three innings it was a close game with the score in favor of Arrowwood but from then on Strathmore, due to Arrowwood errors, went out in the front and the final Strathmore 7—Arrowwood 3. The batteries for this game were, A. Crollin and Christianson for Strathmore, F. Miller and M. Norton for Arrowwood.

In the evening the Arrowwood boys redeemed themselves, playing their usual snappy game in the field and making their bats click hard and often. The final score of this game was Arrowwood 12, Strathmore 7. Batteries, M. Bowman and F. Norton; Christianson, J. Crollin and Collison.

Arrowwood—McCullough 2b, Smith cf, Archambault lf, M. Bowman lb and p, M. Norton c, D. Bowman ss, Mason 3b, E. Norton rf, Miller p. Hales if and 1b.

Baseball games for the next week are as follows: Arrowwood at Gleichen, July 6th; Strathmore at Arrowwood, July 8th, Gleichen at Arrowwood, July 11th.

## Arrowwood Notes

A shower was given in honor of Mrs. Bud Beckner (nee Ruby Willis) at the home of Mrs. M. C. Norton on Tuesday afternoon, July 4th, when about forty of this popular young bride's lady friends were present. The afternoon was spent in games, after which a novel

## Popular Arrowwood Couple Weds

On Wednesday, July 5th, at 2 o'clock the home of Mr. and Mrs. J. Mackie was the scene of a very pretty wedding, when their only daughter, Leabel, was united in marriage with Mr. Allan Phillips of Arrowwood.

The ceremony was performed by Rev. V. M. Gilbert, in front of the fireplace, which was a mass of plants and flowers with an arch of white and green overhead.

The bride who entered the room on the arm of her father to the strains of the wedding march played by Mrs. Palfrey of Purple Springs, wore a white Irish lace gown and flowing veil caught with orange blossoms, and carried a bouquet of pink carnations and fern.

The bridesmaid, Miss Leoma Spencer, wore pale blue floral organza and also carried pink carnations. The groom was attended by Mr. Ralph Leonard, while little Mavis Mackie, dressed in a pale green frock, acted as ring bearer.

During the signing of the register, a solo, "I Love You Truly," was rendered in a delightful manner by Miss Marjorie Leonard.

A dainty buffet lunch was then served to the guests who were the immediate relatives of both bride and groom.

The bride's travelling costume was a royal blue silk crepe ensemble with white accessories.

Amid showers of rice and confetti, the young couple left by car for Calgary, Banff and points south.

Many useful and beautiful gifts were received including the delightfully decorated 3 tier wedding cake.

The Resource joins with the host of friends in wishing this popular young couple a long and happy wedded life.

## Buffalo Hill News

Jeunejohn received a phone message from Mr. Jeunejohn at Sylvan Lake on Monday in which he stated that a rainfall of two inches had been received. Here's hoping it will come further south.

Mrs. D. J. McNeilly had the misfortune last Monday to lose two head of young cattle from what is thought to be blackleg, although it is not definitely known that that was the cause of their death. Every step is being taken to have the rest of the herd vaccinated immediately as a precaution.

## C.G.I.T. In Camp

Again we welcome the C.G.I.T. Camp to Arrowwood. There will be between forty and fifty girls coming from Blackie, Brant, Vulcan, Milo and Carmanagay.

Mrs. W. W. Baggs, Calgary, will be Camp Director. Mrs. Burwash, Brant, Camp Mother. Leaders are Miss Pattison and Miss Chandler, Calgary. Mrs. Taylor, Blackie, Miss McNall, Brant, and Mrs. Love, Vulcan. Girls and Leaders will welcome Mrs. Mackie again as camp cook.

Visitors Day — Saturday, July 8th.  
Church Service — Evening at Brethren Church 7:30, Sunday.

## Calgary Exhibition and Stampede

July 10th-15th

Those planning on attending the Calgary Exhibition and Stampede, July 10th to 15th, may be assured that this year's show will be one of the most interesting ever held in Calgary. The Exhibition will again bring together an excellent display of live stock and the buildings will be filled to capacity with domestic, industrial and Government exhibits.

Chief Smart, chairman of the Stampede/Parade Committee is confident that the best parade ever held, which as usual will be held at 10 o'clock Monday morning.

Everything points to the Stampede contests being a tremendous success this year. The judges and officials are as follows: Judges: James Mitchell, Medicine Hat; Bob Curry, Black Diamond; Emory LeGrandeur, Hussar. Starter: Alex Flemming, High River. Tie Judge: J. W. McNabb, MacLeod. Chute Judges: Thos. Lawson, Hussar. J. M. Dillon, Calgary in charge of arena; Ray Knight, Raymond and Dick Cosgrave, Wayne, in charge of stock; and Leroy Chown, chief clerk in the Stampede office. The chairman of the Stampede committee is Mr. Jas. B. Cross, who as a director and giving his time in an entirely honorary capacity is devoting a great deal of attention to the Stampede, is receiving the heartiest co-operation.

The running races will commence on Saturday, July 8th, and continue during exhibition week.

The feature attraction in front of the grandstand during the evening will be "The Bird of Paradise," a gorgeous production with one hundred artists, and the program will open with the famous chuck wagon race.

The running races will commence on Saturday, July 8th, and continue during exhibition week.

The feature attraction in front of the grandstand during the evening will be "The Bird of Paradise," a gorgeous production with one hundred artists, and the program will open with the famous chuck wagon race.

The Cowboy and Old Timer's Ball Friday evening will again be the scene of much fun and merriment. Indians will parade uptown in the morning and will take part in the Saturday evening programme, when the Stampede champions will receive their prizes, and the week's celebration will close with a mammoth fireworks display Saturday night.

The admission charge to the grounds has been cut in two and the special passenger fares, the lowest ever in force, will assist in providing a large attendance. Intending patrons are urged to inquire of their ticket agent for special rates. A free accommodation booth will be located in front of the C.P.R. Station.

## Who Owns Canada?

The question which appears as the heading of this article was included in examination papers recently submitted to pupils in Montreal schools coming under the jurisdiction of the Catholic School Commission of that city. Answers to the question revealed such vague and uncertain knowledge regarding the status of the Dominion that the Commission appealed to the Secretary of State at Ottawa for authoritative definition of Canada's status within the British Commonwealth of Nations, and among the world of nations.

The answer, given over the signature of Hon. C. H. Cahen, Secretary of State, defines Canada as a self-governing state of the British Commonwealth of Nations. It sets forth that Great Britain does not own Canada any more than Canada owns Great Britain; that Canada and Great Britain are each independent members of the British Commonwealth, and that the Dominion belongs to the people of the Dominion.

This answer should set at rest a large amount of uncertainty among Canadians regarding the official status of the land of their birth. It was evident from the answers submitted in the school examinations at Montreal that the subject had not been sufficiently emphasized by the teachers, and the secretary of the Catholic School Commission has stated that in future more attention will be paid to this matter. It was also pointed out that only in the Catholic schools of Montreal, but in all schools throughout the Dominion.

Canada is today an absolutely free and independent nation—just as much so as any other nation in the world. The King of Canada is George V. He is also King of Great Britain, King of Australia, Emperor of India. In Canada the King is represented by the Governor-General, who is appointed by the King on the advice of the Government of Canada. At one time the Governor-General was appointed on the advice of the Government of Great Britain, and he represented that Government, as well as the King, in Canada. But now—how—represents the Crown only, while the British Government is represented in Canada by a Commissioner in the same manner as the United States, France and Japan are represented by Ministers, and Canada is represented in Great Britain by a Commissioner just as other countries are represented there by Ambassadors and Ministers.

The term and status of "Commonwealth" is employed between two Dominions of the British Commonwealth because each has a common sovereign and such a sovereign does not send an Ambassador or Minister to represent him to himself as he himself is himself to other sovereign nations. The Crown being represented in the person of the Governor-General, the King's several governments are represented the one to the other by Commissioners.

The question may be asked: If Canada is an independent, fully self-governing Dominion of the British Commonwealth of Nations, why does it not enjoy the power to amend its own constitution, and why are appeals taken from decisions of the Supreme Court of Canada to the Privy Council in Great Britain? Other nations, it may be asked, have power to amend their own constitutions, and their Supreme Courts are final courts of appeal.

The answer is, that Canada can exercise both these powers whenever the people of Canada desire to do so, and probably the time will come when they will so decide. Up to the present, however, Canada has preferred to refrain to itself the right of carrying judicial appeals to the Imperial Tribunal of the Privy Council, especially in all matters in dispute between the Federal and Provincial Governments. There is no compulsion that it should do so, and it can refrain from so doing, or can abrogate that right should it deem it wise to do so.

So, too, in regard to amendments to the Canadian constitution. The B.N.A. Act created a confederation of Provinces, reserving to the Dominion certain exclusive powers on the one hand and certain other exclusive powers to the Provinces on the other hand, while in regard to some matters jurisdiction was divided between the two authorities. The Provinces, therefore, have as much right as the Dominion itself to say when and how the constitution shall be amended, and up to the present time certain of the Provinces have preferred to leave this matter to the Dominion. The Confederation with the British Parliament making such amendments to the constitution of Canada as the Parliament of Canada, with the consent of the Provinces, may request. But Canada can secure full and final control over its own constitution if and when the people so desire.

So, the complete and final answer to the question: "Who Owns Canada?" brings us back to the definition given by the Secretary of State at Ottawa—the Dominion belongs to the people of the Dominion. The masters of their own national destiny. Nobody can tax them but themselves; they pay tribute to no other nation. Canada can make its own treaties with other nations irrespective of the effect such treaties may have upon other Dominions of the British Commonwealth.

But, because the Dominion belongs solely to the people of the Dominion, the great responsibility rests upon them as citizens of a sovereign nation among the nations, with absolute equality in the League of Nations, to govern themselves, and to conduct their national and international relationships, as to command the respect of and wield a great influence for good in the world. There should be no spirit of a narrow nationalism in Canada; quite the reverse.

## Mayors Are Youthful

The new mayor of Detroit is 31 years old and everyone is congratulating him on the fact that he is extremely youthful to be assuming such a heavy responsibility. We should like to point out that the mayor of Detroit is 33 years old and that he is now well into his second term. He was 30 when he took on the job, and furthermore, he had had no administrative experience—Borden Cities Star.

Of course women are vain creatures who like to be looked at, but you've noticed who does the most marching in parades.

## Railway Man Solicitor

Recently J. F. Fringle, general superintendent of transportation for Canadian National Railways, received the following wire from A. MacNab, at Peterborough: "C.N. 405,392, shipped by Plensville, Que., has robin's nest under running-board of car. Arrange for supply of worms at terminals. The mother is in charge."

The hottest place in the world is Ladakh, an isolated province of Kashmir, among the Himalayan glaciers. The day temperature at this season often reaches 160 degrees.

## Summer Complaint Plays Havoc With the Bowels

Few people escape an attack of summer complaint. It may be slight or it may be severe, but both the young and the old are liable to it during the summer months. You cannot tell when it will come, how it is going to end. Let it run for a day or two and you know how weak and miserable it will leave you.

On the first sign of an attack or any looseness of the bowels take a few doses of Dr. Fowler's Extract of Wild Strawberry and you will see how quickly it will give relief.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## Chemical Products

## Depression Does Not Seem To Affect Demand For Toilet Preparations

It is evident from the study of the recently issued preliminary report on the production of chemicals and allied products in Canada in 1932 that the depression has practically no effect on the demand for toilet preparations. In 1932 the selling value of these preparations at the plants where they were made was \$4,618,291. In 1931 the value of the output had risen to \$5,946,592 and in 1932 it was \$5,073,134.

The demand for medicinal and pharmaceutical preparations continues on the upgrade. In 1932 the combined value of these products made in Canada was \$17,224,551 and in 1932 it was \$18,345,573, the high mark of \$19,038,884 being reached in the memorable year of 1929 when for several months prices of every commodity were at their highest point.

The chemical and allied products industry in Canada is a substantial one. Last year the aggregate production had a value of \$50,540,240. It is divided into 14 groups and there are 628 factories, most of which are in the Provinces of Ontario and Quebec. The 14 groups are as follows: crude oil; distillation; acids, alkalies and salts; compressed gases; paints, pigments and varnishes; soaps and cleaning compounds; medicines and pharmaceutical preparations; toilet preparations; fertilizers; wood distillation; ink; adhesives; polishes and dressings; flavouring; and other miscellaneous chemical industries.

Imports into Canada under the classification of chemicals in 1932, the highest since 1928, amounted to \$61,580. About 62 per cent of \$17,275,161 was purchased from United States and 17 per cent from other countries from the British Isles. Exports from Canada increased slightly in 1932, the total value being \$11,053,179 as compared with \$10,849,916 in 1931. United States, United Kingdom, Mexico, Portugal, Argentina, New Zealand, Hawaii, Australia, India, Netherlands, Cuba and China in the order named were the main purchasers of Canadian chemicals and chemical products.

## Membership Shows Decrease

Quakers Are Having Contrivance Over Members By Birthright Membership of the Society of Friends—the Quakers—shows a slight decrease in Great Britain during the last 12 months. There are now 19,139 registered members compared with 19,218 in the peak year of 1916.

The Society of Friends is one of the few religious bodies into which baptism is not a condition of membership or baptism or, at a later date, confirmation or confession of faith. This "birthright membership" recently has been the subject of a Chicago editorial, and it is now possible for Quaker parents to delay the acceptance into membership of their children until the young people are of an age to decide theological matters for themselves.

At the close of the year the society accepted by conviction 219 new members, 47 fewer than in 1931, while 130 individuals either resigned or were dropped from membership. There were registered 89 "birthright" members and 50 minors; but 318 Friends were lost to the society by death.

## More Freight Moving

## Transportation Situation Shows Signs Of Improvement

The transportation situation in Canada is showing considerable improvement and reflects the increasing confidence of the business community and improving internal and external commerce, said a bulletin issued by the Department of Trade and Commerce, Carleton Place, Ont., on Monday. The movement of merchandise by railroad has climbed up to nearly three-quarters of normal while that by canal boats in May was approximately double that of the corresponding month last year. Iron ore passing through the Sault Ste. Marie Canal was heavier by over 6,000 per cent and bituminous coal was practically double that of May, 1932.

There is a saying that heaven will protect the poor working girl. "But who will protect the guy she is working?" asks a college wisecracker.

## HAD RHEUMATISM FOR 20 YEARS

## But None Since 1930

This man must have something like a record for suffering. He says: "Since 1910 up to 1930—that is 20 years—I have been a great sufferer with rheumatism. I am a cleaner and since 1930 up to date, I have been free from that dreadful pain, simply by taking Kruschen Salts—and nothing else. I must say that 20 years is a long time to have that awful rheumatic pain about one's joints."—W. F.

## Joy-Riding By Air

New York People Have Money For Extravagant Notions

Late one night the staff of St. Hubert Airport, near Montreal, had what an airplane was coming in and they turned on the beacon and lights.

At 12:30 midnight the "plane" arrived from the States. It was a biplane. There averted two men and a woman, in evening clothes. A taxi cab was in waiting, and it hurried them away to Montreal.

Just before four o'clock the party returned, boarded the "plane," and flew back to New York for an early breakfast.

## Use Of Anti-Toxin

New Treatment Of Diseases Of Children Is Reported

New developments in treatment of two diseases of children, scarlet fever and whooping cough, were reported to the American Medical Association.

There is hope that it will be possible to immunize infants against whooping cough, just as they are protected from diphtheria, by treating them with a vaccine, said Dr. Louis W. Sauer, of Evanston, Ill.

Tests showed, he said, that not one of the children he vaccinated contracted the disease.

Use of anti-toxin in cases of scarlet fever has been found to be so effective in reducing the severity of the disease and its dreaded complications. Dr. Luke W. Hunt, of McCormick Institute for the Study of the Child, in Chicago, summarizing study of more than 2,000 cases.

The anti-toxin should be given within the first day or two after the patient becomes ill with scarlet fever, he said.

## Smashing the Atom

## Powerful Hammer Devised By Scientists Accomplishes Feat

The most powerful hammer yet devised for smashing the centres, or cores, of atoms, which are believed to hold the secret of how all matter is built, was described before the American Association for the Advancement of Science.

This atom-smashing hammer is the deuterium, the infinitely small but enormously powerful core of the heavier of the two atoms of hydrogen which is believed to be the building block of all atoms that are to be smashed. Latest results of its use were reported by Dr. Gilbert N. Lewis, of Stanley Livingston and Ernest O. Lawrence of the University of California.

## Removed Half Of Brain

Removal of almost all of the right half of a woman's brain with no noticeable effect on her mentality is only partial paralysis on the left side was reported to the American Medical Association. Twenty months of observation, Dr. Gardner said, "examination disclosed no change in intellect."

The Irish Free State expects many visitors from America this summer.

## Permanent Exhibition Planned For London

## Alexandra Palace May Be Turned Into Amusement Place

There is a prospect of London being endowed with a permanent "Wembley Exhibition." The Alexandra Palace, on the northern heights of London, Eng., which has been the despair of all concerned with it, has been taken in hand by no fewer than 18 local authorities, who have recommended grants for its modernization which will amount to \$1,000,000. It is proposed the Palace should be so renovated as to convert it into a first-rate place of exhibition and general amusement.

The history of the Alexandra Palace is a dreary one. It was opened exactly 60 years ago as a northern rival of the Crystal Palace, which stands on the southern hills bordering London. A fortnight after its opening it was burned out. Shortly after it had been rebuilt it was compelled to close owing to lack of funds, and remained closed for nine years.

For 20 years following, it had fitful bursts of enterprise. At length money was subscribed to build a park from falling to the speculative house builder. The park, which extends to almost 200 acres, was a valuable acquisition, but nobody ever has been able to do anything effective with the great sprawling palace itself. During the war it made itself useful, first as a barracks for Belgian refugees, and later for German prisoners.

The only good thing in the Palace is the great organ. This was the masterpiece of "Father" Henry Willis. Music-lovers of North London, for years back contrived to find the money to make the organ as good as new, and week-end concerts at the palace have been popular.

## Social Progress

Must Keep Pace With Scientific Advances, Says Hon. R. J. Manion

Social progress must keep pace with scientific advance in order to bring about an equitable distribution of the world's products, Hon. R. J. Manion, Minister of Railways and Canada, told the Canadian Electrical Association at their annual banquet at the Hotel Macdonald in Quebec.

Dr. Manion urged that not only public men but business men and scientists give serious thought to bringing about social reforms that would enable a greater number of the people to share the benefits of what they produce.

The minister made electrical development the theme of his address but touched only on the problem of the day and the world economic conference. It was inconceivable, he said, that the conference would fail to achieve its end, for the world has difficulties between the European nations and United States, Canada would be in an excellent position to treat of them.

Dr. Manion said that he did not anticipate any such difficulties would arise. He said that the belief that the vast majority of people in Canada were opposed to the export of electrical power, not only because it was a source of loss to industrial possibilities in the Dominion, but because of the great difficulty in shutting off power from a friendly country once communities had been built up in the power exporting area.

## Cypress Hills Park

## Highest Elevation Of Any Part Of Saskatchewan

Cypress Hills Park, known as the Highlands of Saskatchewan, will be officially opened this year. This park is 20 miles south of Maple Lake and is the highest elevation of any part of the Province of Saskatchewan. Some of the streams in the park flow south to find the Missouri River and some flow north to join the Saskatchewan River and then on to Hudson Bay. The main part of the park is set above the level of the sea at 1,500 feet, and is even higher than Banff, the famous mountain resort in Alberta. New buildings in the park include a new lodge with 18 guest rooms and a number of log cabins.

## French Radio Licensed

Under the new French Law radio owners in France must have a license. Owners of crystal sets are compelled to pay a fee of 10 francs, and owners of valve sets \$5. Sets installed in places where the public may listen are licensed for \$6.25 or \$12.50 if the public pays an admission fee.

Flax was grown on 24,000 acres in England in 1930; nowadays produce the only flax grown in the King's Sandringham estate.

England's Russian population now totals 67,626.

## Fragrantly Yours

## Ingenious Excuse For Speeding

Thought Fire Engine Was Coming Said San Francisco Girl

The excuses proffered by our young motorists when caught speeding are curiously lame and hackneyed, complains a correspondent of the *Monterey Star*.

Why not emulate a girl friend over in San Francisco, who declared, truly positively radiating from her big blue eyes, that she thought a fire engine was behind her, and that it was up to her to hurry to get out of the way. She was chased by motorcycle men, and did not stop until two shots had been fired by them. Why are not our own traffic police encouraged by the "Yard" to tackle their cars in this modern and virile way? At least a machine-gun might be stationed at busy spots along byways roads during the summer weeks to increase respect for the law, even if it were to fire only blank.

## Tax-Free Bond Ruling

Tax-free Victory bonds forfeit that exemption when they are paid out by a company to its shareholders in the form of dividends. This was the judgment of the supreme court of Canada. Mr. Justice Lacombe dissenting, on an appeal taken before it by D. J. Waterous of Brantford. The judgment dismissed the appeal with costs.

An historian announces that women used cosmetics in the Middle Ages. Women still use cosmetics in the middle ages.

More than 10,000 Alberta silver fox furs were placed on sale at the first annual sale of pelts in London this year.

## Only Firestone

Gives You All These  
**EXTRA VALUES**

---and at No Extra Cost

Year after year Firestone has led the way in giving car owners extra tire values to save them money. Now Firestone gives you an amazing new guarantee which fully protects you for twelve months against any condition that may render a Firestone Tire unfit for further use as a result of blowouts, cuts, bruises or any other road hazard excepting punctures or running the tire flat.

For this alone it would pay you to buy Firestone—but, in addition, Firestone is the only tire that can give you all these extra values:

- 1—Two Extra Cords Under the Tread.
- 2—Gum-Dipped Cords.
- 3—Balanced Construction.
- 4—Non-Skid Safety Tread.

As a result of these extra features Firestone gives 25% to 40% longer tire life—no extra cost.

**Low Priced Tires.** If you want a low priced but dependable tire, ask for the Firestone-Oldfield. As good as most first line tires, but costs 20 per cent less. Made by Firestone and guaranteed for 12 months.

(Continued from page 1)

scheme was carried out in presenting the many useful gifts to the bride. An old fashioned well with a rope and windlass was so arranged, in the drawing room, that it appeared as if the bride was hauling the gifts from the well as she turned the windlass. A paper, "The Afternoon Whoop," was made up by groups, telling of the wedding. This was much enjoyed. A duty lunch was served, after which the guests took their departure.

Walter Larsen, son of Mr. and Mrs. Lawrence Larsen, arrived in Arrowwood last Thursday with the Rev. John Wienand and family, from Fargo, North Dakota, where he has been attending school and will spend his vacation here, assisting his father and brother in the Larsen Implements.

Mr. and Mrs. E. B. Lyle of Calgary visited over the weekend at the W. C. Lyle home. Mrs. W. C. Lyle, who had been visiting in Calgary, accompanied them.

Mrs. Steiner of Calgary is spending a short holiday at the home of her son Walter.

Miss Mary Dumka returned on Monday from Medicine Hat, after visiting for a few days with relatives.

Mr. R. R. Saunders and son Arthur were visitors to Okotoks Sunday.

Mrs. G. G. Smith and son Clifford are visiting with relatives at Okotoks.

Mr. H. McCullough left last Sunday for his home at Aldersyde, where he will commence his holiday.

Lawrence Larsen, of Larsen Implements, went to Bassano to get a tractor and other farm machinery, which he will haul to Calgary.

Malcolm Taylor who has been taking his Grade XII at Banff, returned to his home last Sunday, where he will spend his vacation.

Miss L. Spencer leaves today on her holidays, which will be spent at Banff, Kamloops and Coast points.

Edith Beagle left on Wednesday evening for Carleton Place, where she will visit with her sister, Mrs. J. Mackie.

Mr. R. H. Bishop, Manager of the local branch of the Bank of Nova Scotia is spending his holiday in Edmonton. He is accompanied by Mrs. Bishop and sons.

Mr. A. Horning, son Norman and Everett Mason, returned on Tuesday from a trip through the Edmonton district and report an abundant fall of rain in that district.

Mr. and Mrs. R. E. Hales and Joan Allan drove to Red Deer on Sunday. Mrs. Hales and Joan remaining there for their holidays. Mr. Hales returned Monday accompanied by Vaughan Allan.

The local baseball boys will play at Gleichen tonight, on Saturday the Strathmore Nine will visit Arrowwood and on Tuesday of next week the Gleichen club will play here.

A Canadian Girl Guide Club is being organized in Arrowwood for girls from 8 yrs to 16 yrs. Anyone interested in this work is asked to attend

a Mothers' Meeting on Saturday night, July 8th at 8 p.m. at the home of Mrs. J. Weiss.

The present surplus of wheat and other commodities is very much like a bald-headed man, who has a good growth of whiskers. The production is good but the distribution is poor.

Rev. John Wienand, who will be the Pastor of the Church of the Brethren, at Arrowwood, arrived last Thursday from Bellefontaine, Ohio, together with his wife and daughter, have taken up their residence in the parsonage. The reverend gentleman spoke to large and appreciative audiences last Sunday morning and evening. Without doubt the attendance will be greatly increased under the able leadership of Mr. Wienand.

Today's Great Thought—As you sow, you shall reap—Unless you are an amateur gardener.

### There Must Be Something To It

The large and appreciative audience that gathered at the Curling rink last Thursday evening to hear Wm. Aberhart, B.A., lecture on the Douglas System, was very attentive. For two hours this learned speaker gave facts that were a revelation regarding this new Economic System. It behoves all to learn more about this movement that is gaining ground so rapidly and thus decide for themselves what is the best way out of the present predicament.

Wherever they are being used cord rings are getting more popular every day. If you are bothered with oil pumping, lack of compression, or lack of power, in your car, truck, or tractor, we do not hesitate to recommend Cord rings. We have a set in our "Six-Wheeler" that is going on six thousand miles and is still going strong. We have used several different makes of rings but we are getting more real service from Cord rings than any other brand of ring that we have tried.

We had anything anywhere anytime, and it may be to our mutual benefit to give us a trial in this line. We are glad of the opportunity to serve you when it comes to hauling.

Rastus and Liza were roller skating, when Liza suddenly fell. After floundering about she quickly picked herself up and said, "Rastus, did you notice how quickly Ah recovered my equilibrium?" Ah she did! You did it so fast that Ah failed to notice you had it uncovered."

## AMAZING NEW TIRE

brings BLOWOUT PROTECTION FREE

### The New Goodrich Safety Silvertown

WITH LIFE-SAVER GOLDEN FLY

We were certainly amazed when we saw the tests on this new tire. We hardly thought it possible for any tire company to make a tire that would stand up under heat and continuous wear and abuse the way this one does.

In addition to all its other features of safety and durability, this new Goodrich Safety Silvertown has the amazing new Life-Saver Golden Fly. It resists terrific heat. Fabric and rubber don't separate. Blisters don't form inside the tire. Blow-outs are prevented. Drop in today and let us show you a cross section of this amazing new tire. It costs no more than other standard tires.

Guaranteed for 12 Months
